Overview

Papers offering novel research contributions are solicited for submission to the *13rd International Conference on Cryptology and Network Security* (CANS-2014).

The focus is on original, high quality, unpublished research and implementation experiences. We encourage submissions of papers suggesting novel paradigms, original directions, or non-traditional perspectives.

Submitted papers must not substantially overlap with papers that have been published or that are submitted in parallel to a journal or a conference with formally published proceedings.

Topics of interest

Access Control for Networks	Mobile Code Security
Anonymity & Pseudonymity	Multicast Security
Attacks & Malicious Code	Network Security
Authentication, Identification	Peer-to-Peer Security
Block & Stream Ciphers	Public Key Cryptography
Cloud Security	Security Modeling
Cryptographic Algorithms	Security Architectures
Cryptographic Protocols	Security in Location Services
Denial of Service Protection	Security in Social Networks
Embedded Platform Security	Sensor Network Security
Hash Functions	Spam & SPIT Protection
Identity & Trust Management	Spyware Analysis and Detection
(Future) Internet Security	Virtual Private Networks
Key Management	Wireless and Mobile Security

Instructions for authors

The submission should be at most 12 pages, excluding the bibliography and appendices, and at most 16 pages in total. Submitted papers should be intelligible and self-contained without appendices. Papers must be submitted only electronically. The electronic submission site is available at: https://www.easychair.org/conferences/?conf=cans2014

Submissions must be anonymous (no author names, affiliations, acknowledgments, obvious references). At least one author of every accepted paper must register to the conference by the early registration deadline indicated by the organizers.

Authors have to present their own paper. Papers without a registered author will be removed from the proceedings.

Accepted papers will be published in Springer's **Lecture Notes in Computer Science** (LNCS) and will be available at the conference. Papers should follow the formatting instructions of the Springer LNCS Style (http://www.springer.com/lncs), at the time of submission.

Important dates

Submission deadline:	**June 10, 2014**
Notification to authors:	**July 25, 2014**
Camera-ready version:	**August 10, 2014**
