Call for expression of interest for two (2) Engineer-Data Scientists at the Institute of Computer Science, Foundation for Research and Technology – Hellas (FORTH)

Position: 2 positions

Project: Dissecting Multi-Neuronal Modules of Computation in the Neocortex

Desired starting dates: As soon as candidates are available, one month after evaluation.

Duration: 6 months, with the possibility for further extension.

Location: Heraklion, Crete, Greece.

Opening date for applications: 18 April 2019

Closing date: 13 May 2019

Reference: “ELIDEK_April_2019”

Description:

We seek an engineer/data scientist for our team with a strong background in machine learning and/or statistical analysis. The candidate will participate in our new interdisciplinary project entitled “Dissecting Multi-Neuronal Modules of Computation in the Neocortex” funded by the General Secretariat for Research and Technology (GSRT) and the Hellenic Foundation for Research and Innovation (HFRI) for the support of postdoctoral researchers at the Institute of Computer Science at FORTH. The main focus of the project is

This project has received funding from the Hellenic Foundation for Research and Innovation (HFRI) and the General Secretariat for Research and Technology (GSRT), under grant agreement No 2285.

the identification of the functional networks in the primary visual cortex. For that, we apply various machine-learning and statistical analysis algorithms to discover multi-neuronal motifs on data collected in vivo, using 2-photon imaging. Researchers from Harvard Medical School participate actively in this exciting project.

The engineer/data scientist will participate in various data preparation, analysis, and dissemination activities in the context of the project. Prior experience in machine learning, data science, and statistical analysis is an important aspect for the project. Experience in computational neuroscience is a plus but *not a prerequisite*.

Required qualifications:

- BSc. Degree in Computer Science, Computer Engineering, or a related field
- *In depth knowledge of machine-learning/signal processing*
- Physical presence at FORTH, Heraklion, Crete for the duration of the position
- *Strong programming experience in Matlab and/or R*
- Good programming experience in C/C++
- Willingness and ability to work cooperatively within a team, to learn, and to adapt to the various research activities
- Passionate to work in a research environment
- Excellent knowledge in English

Desired qualifications:

- M.Sc. degree in Computer Science or a related field, with a specialization in data analytics/machine-learning/signal processing
- Publications in the field of data analytics/machine-learning/signal processing
- Research experience

Application Submission:

Interested candidates can submit their applications via <http://www.ics.forth.gr/jobs/en/> using the link “Apply for the position” under the announcement. Applications will be evaluated at the end of the closing date; evaluators may reject some candidacies on the grounds of insufficient qualifications. Applications must include:

This project has received funding from the Hellenic Foundation for Research and Innovation (HFRI) and the General Secretariat for Research and Technology (GSRT), under grant agreement No 2285.

- Detailed CV;
- Scanned copies of academic titles;
- Detailed presentation of prior work, studies demonstrating knowledge of desired skills; Max 2 pages.
- Detailed presentation of the project(s) with data analysis/machine-learning emphasis, demonstrating knowledge of various algorithms and programming experience; detailed description of their exact role (participated, supervised, etc). Max 2 pages.
- **2 or 3 references from people that have worked with the candidate, sent directly to Professor Maria Papadopoulou before the closing date (mgp@ics.forth.gr)**

Promising candidates may be invited for an interview before a decision is made.

Contact Information:

- For information and questions regarding the application and selection procedure, please contact: webmaster@ics.forth.gr
- For information and questions about the advertised position, please contact Professor Maria Papadopoulou (mgp@ics.forth.gr) or George Tzagkarakis (geotzag@gmail.com)

Selection Announcement

The result of the selection will be announced on the website of ICS-FORTH. Candidates have the right to appeal the selection decision, by addressing their written objection to the ICS secretariat within five (5) days since the results announcement on the web. They also have the right to access (a) the files of the candidates as well as (b) the table of candidates' scores (ranking of candidates results). All the above information related to the selection procedure will be available at the secretariat of ICS- FORTH in line with the Hellenic Data Protection Authority. Access to personal data of co-candidates shall be limited to personal data (and relevant data) and supporting documents which have been the basis of the evaluation of the candidates for the specific post(s). Prior to the announcement of the personal data and/or documents of the co-candidates to the applicant, FORTH will inform the data subjects in an appropriate way.

FORTH is compliant with all legal procedures for the processing of personal data as defined by the **Regulation EU/2016/679 on the protection of natural persons with regard to the processing of personal data.**

This project has received funding from the Hellenic Foundation for Research and Innovation (HFRI) and the General Secretariat for Research and Technology (GSRT), under grant agreement No 2285.

FORTH processes the personal data and relevant supporting documents that you have submitted to us. Processing of that data is carried out exclusively for the needs and purposes of this specific call. Such data shall not be transmitted to or communicated to any third party unless required by law.

FORTH retains the above data up to the announcement of the final results of the call, unless further process and reservation is required by law or for purposes of exercise, enforcement, prosecution of certain one's legitimate legal rights' as defined in the Regulation EU/2016/679 and/or in national law.

We inform you that under the **Regulation EU/2016/679** you have the rights to be informed about your personal data, access to, rectification and erasure, restrictions of process and objection to as provided by applicable regulation and national laws.

We acknowledge also to you, that you have the right to file a complaint to the national Data Protection Authority. For any further information regarding exercise of your personal data protection rights, you may contact the Data Protection Officer at FORTH at dpo@admin.forth.gr.

You have the right to withdraw your application and consent for the processing of your personal data at any time. We inform you that, in this case, FORTH shall destroy such documents and/or supporting documents submitted and shall delete the related personal data.

This project has received funding from the Hellenic Foundation for Research and Innovation (HFRI) and the General Secretariat for Research and Technology (GSRT), under grant agreement No 2285.
